

1973 Triumph GT6 – MK3

New Parts and Service History – All Work Just Done 2019-202

ENGINE:

- Rebuild engine – complete
- Hone cylinders
- Main bearing set – standard
- Rod bearing set – standard
- Ring set – standard
- Check ring end gap – good
- Valve job
- Replace rocker shaft
- Timing chain and timing chain tensioner
- Measure oil pump clearances – good
- Engine gasket set
- Valve clearance adjustment (0.010")
- Front seal, rear seal
- Oil pressure switch
- Prime engine with oil before starting
- Break in oil with ZDDP/Zinc
- Follow up oil and filter – done (with zinc)

MOUNTS:

- 2 engine mounts
- 2 transmission mounts

PERFORMANCE:

- Dual carbs overhaul – master kit – ultra sonic cleaner
- Choke rebuild kits (2) and bypass diaphragm (2)
- Fuel filter
- Tune replace
 - Plugs (0.025”), cap, rotor, points (0.015”), condenser, ignition wire set, air filters
- Clean and lube distributor mechanical advance
- Timing and carb adjustments

FUEL:

- Fuel tank sender unit
- Fuel pump
- Fuel hoses
- Fuel filler hose and vapor hose

SUSPENSION:

- Polyurethane upper and lower control arm bushings
- Ball joints (2) upper
- Trunion lower bushings kit (left and right)
- Front shocks
- Polyurethane front shock upper bushings
- Sway bar links, bushings, and brackets

STEERING:

- Tie rod end set (left and right)
- Steering rack polyurethane mount bushings
- Steering rack boot kit
- Alignment

BRAKES:

- Master cylinder
- Front rotors, front pads
- Front and rear brake hoses
- Resurface rear drums
- Rear wheel cylinders (2)
- Rear brake shoe springs and hold down kits
- Hand brake boot

WHEEL BEARINGS:

- Wheel bearing seals
- Front inner and outer wheel bearings

EXHAUST:

- Complete stainless steel exhaust system (Y-pipe and 2 rear sports mufflers)
- Install exhaust kit, clamps, and hanger

MISCELLANEOUS:

- Wiper blades
- Wiper mount pads

COOLING SYSTEM:

- Radiator service – send out – chemical flush internally and externally – pressure test – paint
- Water pump
- Fan belt
- Heater hoses
- Radiator cap and shroud
- Hoses – upper, lower set, and elbow
- Thermostat: 180°

ELECTRICAL:

- Complete vehicle wiring harness
- Starter – hi torque
- Starter solenoid
- Horn (set) – replaced
- Headlight switch

BATTERY: Positive battery cable

CLUTCH: Clutch master and slave

TRANSMISSION:

- Input shaft seal
- Tailshaft seal
- Shifter bushings
- Shift lever pin kit
- Gaskets – miscellaneous
- Change fluid

TIRES:

- Mount and balance 4 tires - Kumho Solus 155/80R 13
- Replace valve stems

OTHER:

- Tunnel cover; new sound/heat insulation (both sides and tunnel gasket)
- Floor – new sound/heat insulation
- 1st engine oil: break in oil – follow up oil change included ZDDP/Zinc
- Lube wiper motor, replace blades
- Hood pins buffers – replace and adjust
